

# YONDER STAR

**Imagine taking in bright  
blue coastal waters.**

Imagine exploring and absorbing the scents and sounds unique to these extraordinary islands.

Imagine travelling to places you've dreamed about.

 Yonder Star, the intimate way to experience ocean pleasures and treasures at your own pace.

She will transport you to hidden coves and quiet bays, sandy beaches and rocky bluffs, sheep-covered paddocks and bush-clad hills. And she will do it with elegance and grace.

Designed by renowned naval architect Don Brooke, the eighty-seven-foot ketch was scrupulously renovated by New Zealand craftsmen in 2003, following a complete rebuild in 1999.

★ Yonder Star's generous proportions reflect the designer's intent to create a gracious residence at sea.

Whether lounging in your cabin, dining in the saloon or playing cards in the pilothouse, you will find yourself in gracious surroundings.

The boat's interior redesign has made each space below deck fresh and inviting.

Varnished mahogany, polished brass and sumptuous fabrics convey a sense of warmth and sophistication.

Bed and bath linens are luxurious.

Table settings and dining linens are likewise of the highest standard.

★ Forward of the living and dining space is a well appointed guest cabin with a private bath.

If sheer relaxation is what you're after, Yonder Star offers plenty of space, in sun or shade, below deck or above, for lounging with a book or magazine. A library of contemporary fiction and non-fiction volumes is open to guests. Likewise, a broad range of CDs and DVDs and a selection of board games are always accessible.

If your interests lie beneath the surface of the sea, Yonder Star is equipped with both snorkel and scuba gear, and fishing enthusiasts will find plenty of quality tackle on board.

Those with a need for speed may want to have a go on Yonder Star's wakeboard or biscuit. For a scenic paddle along shore, two kayaks are available.

Facilitating a number of these activities is a fifteen-foot tender with a powerful but quiet 50-horsepower motor.

★ Meals on Yonder Star are an event, celebrating innovative cuisine and fresh, local ingredients.

The chef's fervent desire is to explore and delight your culinary sensibilities.

The chef's professionally equipped galley is tucked away from the saloon, easily accessible but unobtrusive.

Teak decks are open and uncluttered. Soft cockpit seating invites relaxation and open-air dining.

★ Enjoy the freedom of the open sea as you let yourself fall under Yonder Star's spell.

If there's wind to be found, and an exhilarating sail is what you're after, Yonder Star will happily oblige.

The 2003 renovation added almost thirty percent more sail area, along with in-boom furling, electric winches and a host of other features that help make sailing a pleasure. The Captain is equally willing to share his expertise with an aspiring sailor or turn over the helm to a fellow salt.

The Yonder Star team is dedicated to fulfilling your wishes. Before you set sail, they'll be thoroughly briefed on your preferences. And after departing, crew members will make every effort to address your whims, from breakfast picnics on the beach to candlelit dinners under the stars, plus anything and everything in between.

**Come and share  
the Yonder Star  
experience.**
